Rainforest Wild ASIA

Wild Cavern Adventure (WCA)

Venture into the cave on a guided 3-hour homeseat adventure navigating tight spaces in the dark.

No experience is required as you will receive training on how to slip into the safety zone and move before starting your adventure.

Briefing & Harness up at Adventure Base Camp.

Practice slipping into the safety zone and getting into position for abseiling.

Begin with a 18m rope scramble and climb to your base to the entrance at 7m above ground.

Upon entering, adjust your eyes to the dark and rely on your headlamp to illuminate your path.

Pull yourself across a wire on a horizontal rope but not to worry as you are always connected to the safety line.

Experience abseiling in the dark and other highlights including a quiet moment in stillness, darkness and navigating through a narrow tunnel.

Upon exiting the cave, you will be greeted by our friendly cave guides warming all things speleothems (geology- speak!)

A road trail awaits as you continue your journey through adventure with an exclusive photo opportunity at the Oculus.
